

# LIMITED WARRANTY

Reaves totally Engineered Buildings are warranted to:

Sustain snow loads of \_\_\_\_\_#/ft design load

Sustain snow loads of \_\_\_\_\_#/ft design load

Resist wind loads of 90 miles per hour

Be free of defects in material and workmanship on all components manufactured by Component Manufacturing

Reaves Buildings carry a limited life-time warranty. Reaves warrants to repair damage to the trusses, girt frames, purlin frames, columns or sliding doors (furnished by the fabricator) if caused by snow loads or winds less than the engineered design loads above specified. Reaves does not warrant damages caused by falling or flying objects or damages to walls, windows, ceilings equipment or contents.

This Warranty is made to the original purchaser and may be assigned to a successor one time. The assignment of said warranty must be submitted to Reaves Building Systems in writing. The warranty is exclusive and in lieu of all other warranties, written, oral and implied, including any warranty of merchantability or fitness for a particular purpose.

Warranties do not apply if alterations which affect the building's structural design have been made. The liability of Reaves arising out of the sale, use, and operations of the construction components (including claims for a consequential damage) shall in no event exceed the cost of furnishing a replacement for the defective, damaged, or destroyed component as herein about provided and upon expirations of the warranty period, all such liability shall terminate the foregoing and shall constitute the sole remedy or the purchaser and the sole liability of the Reaves Corporation.

The metal exterior panels and trim used on the Reaves Building are manufactured by other companies, who warranty their product, a copy of which has been supplied to the buyer. If any problem covered and such supplier's warranty occurs, the Reaves Corporation, without assuming any obligation, will assist the buyer in obtaining reasonable satisfaction within limits of this warranty.

Project # \_\_\_\_\_ Date erected \_\_\_\_\_ 20 \_\_\_\_\_

Signed [Fabricator-Distributor] \_\_\_\_\_

Building Project # \_\_\_\_\_ Date erected \_\_\_\_\_ 20 \_\_\_\_\_

On this date \_\_\_\_\_ [Builder-contractor-dealer] has completed my building, and it has been inspected by \_\_\_\_\_ [Name] of \_\_\_\_\_ [company]

I am satisfied with the structure and the manner in which it was erected.
